Teaching children has always been my career of choice. Not only do I see them develop their identity, and gain confidence, but I also get to hear their laughter and share in their triumphs. Children are natural motivators and their curiosity and intelligence amazes me each and every day. Helping children and their families is so rewarding, and I couldn't see myself doing anything else. Queen of Hearts has become part of my family, and I love the special bond that happens with each child. They are the true teachers.
